

ACTCONKIT

ACTSSW

Actuator Controller

Our Actuator controller gives you complete control, with it's dual reversing polarity circuit, stop switches and negative pulse trigger. This is the most versatile actuator controller on the market today. Just mount the actuator to the piece you want to move. Mount the up and down stop switches where you want the actuator to start and stop. Wire in your momentary switch or negative pulse alarm wire and your done. It sounds easy and it can be with practice.

(90 - day warranty)

[See Page 43 for our Motorization Instructional Video \(VIDEOMB\)](#)

Item ID	Description
ACTCONKIT	Actuator controller complete with 2 stop switches and instructions.
ACTSSW	Stop Switch. Same switch that comes with our Actuator Controller.

ACTBRK1

ACTSW

Actuator Brackets (A Must)

These brackets allow for easy installation of all models of Select linear actuators. Their unique design make them ideal for use in vertical lift or sliding rack applications. The brackets also allow for the linear actuators to utilize pivot angles.

Item ID	Description
ACTBRK	Steel bracket for Rorzaglide and Mini Actuators
ACTBRK1	Steel bracket Long Pin for Acme Actuators

Actuator Switches

ACTSW Actuator control switch, Double Pole Double Throw, On-Off-On (No Relay needed) 5 amp rating

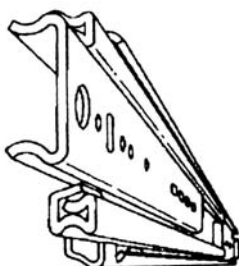

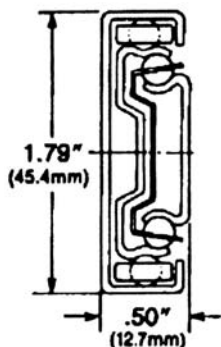

Actuator Brush

The actuator brush is an excellent piece for hiding open edges and holes. It comes with an aluminum rail that can be cut to size and drilled for fastening.

ACTBRSH Actuator 1-1/2 x 36" brush

ACTBRSH

Sliding Tracks

These steel tracks are perfect for most jobs. Ideal for vertical lifts when used in multiples with linear actuators. They are very low-profile (1/2" thick) and feature full-length extension capability. Weight rating is 100 lbs. Sold in pairs.

Sliding Tracks Zinc-plated Finish (sold in pairs)

Our sliding tracks are very smooth with metal bearings. We recommend you always use 2 pair for horizontal and vertical movement to prevent slap.

Item ID	Travel length	extension length
SLT108Z	8 in / 20.3cm	16in / 40.6cm
SLT110Z	10in / 25.4cm	20in / 50.8cm
SLT112Z	12in / 30.5cm	24in / 61cm
SLT114Z	14in / 35.6cm	28in / 71.1cm
SLT118Z	18in / 45.7cm	36in / 91.4cm

ACTUATOR KITS Ready to go!

ACTKIT1

1-Mini Actuator 4" Rated at 25 lbs, 1- Actuator bracket, 1- Actuator brush, 1- Actuator momentary switch, 1-Actuator Controller w/ stop switches. Perfect for moving small doors.

(Available with the 6" Mini) Item# ACTKIT1.6

ACTKIT1

ACTKIT2

ACTKIT2

1- Acme Actuator 8" Rated at 75 lbs, 2- Actuator brackets, 1- Actuator momentary switch, 1-Actuator Controller w/ stop switches. 1-Actuator brush. Perfect kit for moving speaker enclosures and small amps.

(Available with the 4", and 6") Item# ACTKIT2+size

ACTKIT3

1- Acme Actuator 12" Rated at 75 lbs, 2- Actuator brackets, 1- Actuator brush, 1- Actuator momentary switch. 1-Actuator Controller w/ stop switches. Perfect kit for moving speaker enclosures and large amps.

ACTKIT3

ACTKIT4

ACTKIT4

1- Rorzaglide Actuator 8" Rated at 100 lbs, 2- Actuator brackets, 1- Actuator brush, 1- Actuator control switch. 1-Actuator Controller w/ stop switches. Perfect kit for moving speaker enclosures, Amp Racks Etc.

(Available with the 12", and 18") Item# ACTKIT4+size

(90-day warranty on Actuator controller)
