Milled Fibers:

Cabisil and Milled are a great tool to thicken up and strengthen up fiberglass resin. Add 10% to 20% to your liquid resin.

FGCABS1QT	Cabisil: For making resin thicker	1 quart
FGCABS	Cabisil: For making resin thicker	5 quart
FGCABS31Q	Ground fiberglass fibers 1/32" length	1 quart
FGCABS3	Ground fiberglass fibers 1/32" length	5 quart

Fiberglass Mat:

Fiberglass matting is used as the binding material when making anything out of fiberglass. The different types and weights will give you different results.

Choose the product that fits your application.

1.5oz. Chop is the most commonly used, great for most applications.

FGMAT15	1.5 oz. Chop fiberglass mat. 50" wide	1 yd.
FGMAT155	1.5 oz. Chop fiberglass mat. 50" wide	5 yd.

FGMAT24	24 oz. Woven fiberglass mat. 50" wide	1 yd.
----------------	---------------------------------------	-------

24 oz. Woven is the heavyweight. Use this when you need a lot of strength.
